Are you thinking about starting a new business or purchasing one but do not have the knowledge or experience?

Many people consider business ownership as an alternative to employment. Do you have a great idea to fill a need? Are you a subject matter expert in your field? Have you been working in your industry and are now interested in branching out on your own? Do you need to know more about the ins and outs of operating a business? This workshop will help you start out on the right path!

This two (2) hour workshop will cover the basics of starting a business. We will cover paths to business ownership, sources of financing, developing a business plan, and who the SBA resource partners are as well as many other topics to help you decide if small business ownership is for you.
