ROADS UPDATE

We receive a lot of calls pertaining to road repair during the year. One would think that with the mild winter that just passed that we not see as much damage in the spring as we do during a severe, cold winter. The result is actually the opposite as the roads froze and thawed more than once.

The Public Works Department Highway crew consists of three full-time employees and one or two part-time seasonal employees. This crew has the responsibility of maintaining 108 roads that amount to 61 miles of summer road maintenance. Along with this supreme chore they also do many other maintenance tasks across all the departments of the Town.

Five years ago, we had a road study done by the University of New Hampshire. It showed that at best we had approximately 6.5 million dollars of work to catch up on. We developed a capital plan of \$600,000 annually and attacked the most traveled/worst conditions roads. In the last 4 years, Jon St. Pierre and his crew have completed 10 roads (9%) which equates to 19.7 miles (32%) of our roadways. Some of the sections that were beyond simple repairs were completely rebuilt while others were paved with binder that should last 10 years but will not meet the longer term expectancy needed to reach the desired 15-20 years.

Our backlog as we look forward is still 59 roads and lanes needing repair in the next ten years. The average age of these roads since their last major work is 18.8 years. An additional 37 roads will need some sort of upgrade with a projected cost for the next 10 years of \$693,000 per year, but the dilemma is that the roads deteriorate another 8% per year. This year we are asking to raise the appropriation in the capital budget from \$600,000 to \$700,000. Using our present plan we will still have a backlog of 2.3 million dollars in 2026.

I challenged Jon and his Foreman Jay Redimarker to think outside the box and provide me with alternate solutions. Their solution was easy to talk about but much tougher to implement. They suggested that we ask for a bond issue of 4 million dollars and that we work aggressively to repair the backlog in the next three years. The annual appropriation of \$700,000 will pay for the Bond as well as other road needs. The completion of the backlog of roads will mean less labor with cold patching potholes, less wear and tear on vehicles and buses, better winter plowing maintenance, less exposure to employees due to prolonged road repairs, and what I like best is less complaints and the ability to work on other opportunities.

If you have questions concerning the Bond and the road improvements, please give Jon or me a call or stop by. Following this memo is a list of roads that we will work on over the next three years should you all agree to make this happen.

We hope to see you supporting this article at the annual Town meeting on May 17, 2016.

Respectfully,

Perry Ellsworth
