Roberta Orsini
Acting Town Manager
Town of South Berwick
180 Main Street
South Berwick, ME 03908-1535

Dear Ms. Orsini:

The Maine Department of Transportation (MaineDOT) is planning on conducting surface water quality mitigation measures near the intersection of Routes 236 and 4 through the Surface Water Quality Protection Program (SWQPP). The purpose of this project is to treat surface water runoff from roadways. The project will take place this construction season and will consist of improvements to the outfall drainage area.

The purpose of this letter is to inform the citizens of South Berwick of MaineDOT's intent. A copy of the plan is enclosed for your review. Please contact me by June 6, 2008 should you have any questions or concerns about this project.

Sincerely,

Christopher A. Rushton
SWQPP Project Manager

Project Summary
South Berwick
PIN 15711.07

Problem Description/Existing Conditions: The drainage outfall area near the intersection of Routes 236 and 4 resulted in approximately ±170 feet of erosion of personal property.

Project Goals: The main goal of this project is to reduce sediment transport to stabilize the ditch receiving stormwater and to reduce sediment transport to the Salmon Falls River.

Recommended Water Quality Project/Water Quality Project Description:

- Stabilize ±170 feet of drainage ditch
- Reduce sediment load to Salmon Falls River

Resource Impacts: In-water work is required to accomplish these goals.

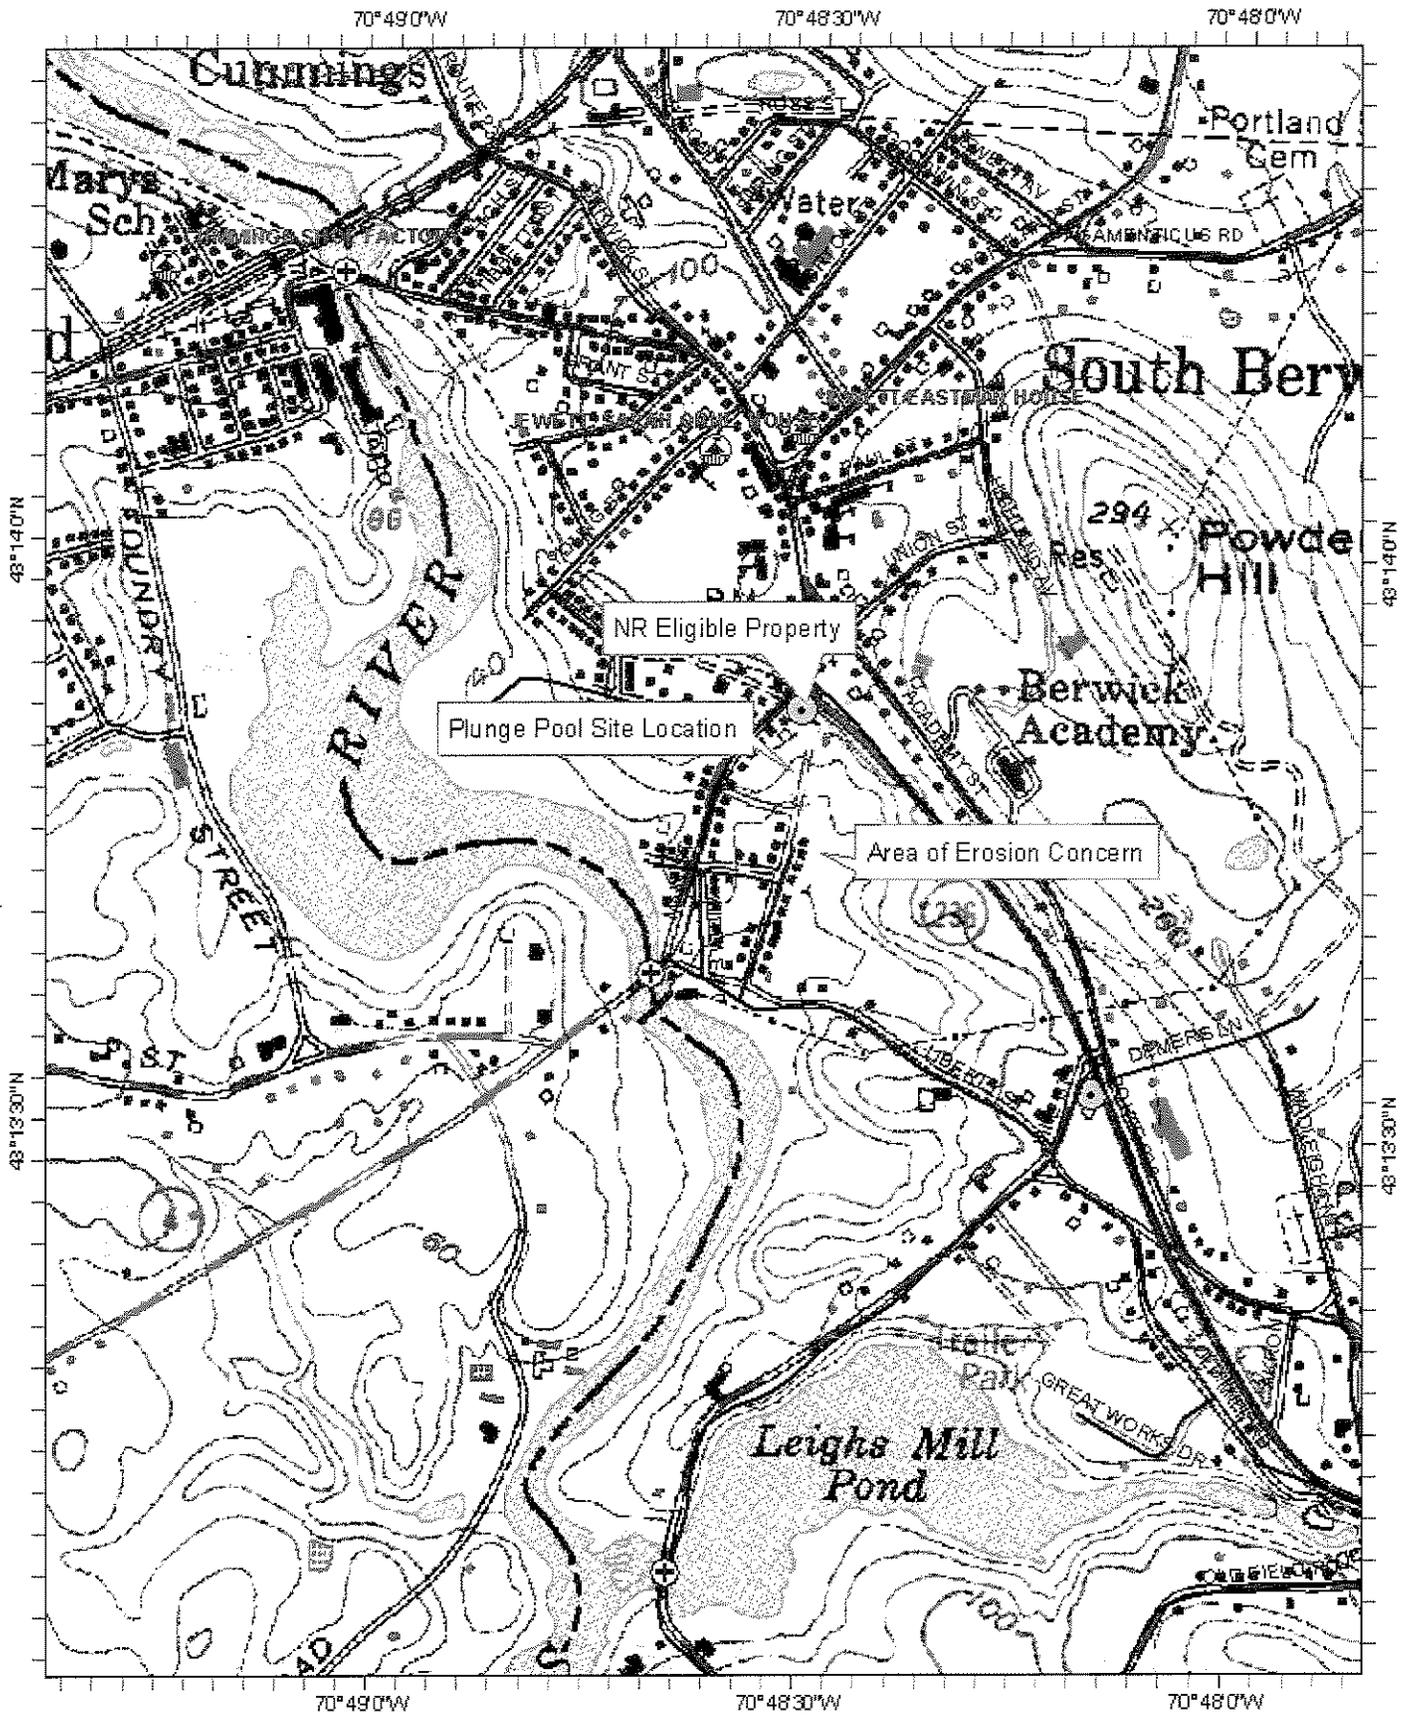

- Ditch stabilization may result in culvert placement for ± 170 feet
- Armor outlet of currently effected area

Regulatory Review: Initiated Field Studies, hazardous waste and MHPC archeology review prior to March 20, 2008 (please see ProjEx)

Schedule: Construction will occur between 7/15/08 and 11/30/08.
